29th January 2016

Dear Parents

Space has proved to be a wonderful topic for the children with so many fun activities to support their learning.

The term started with the mobile planetarium visit and was quickly followed up by the arrival of mysterious space rocket landing in our playground!

We do of course have more to come! I'm sure you will remember that on the 4th February we will be visited by Maidenhead Astronomy Society who will be spending the afternoon in school talking to the children. They will be bringing models of planets as well as a short film. Then between 5.00 – 6.30 pm you and your children are invited back to school to take part in night time star gazing led by Maidenhead Astronomy Society. This should be a truly exciting evening for the children. Our neighbours immediately behind us (where we have our firework display) have kindly said we may use their garden for viewing the sky.

The Astronomy team will be providing telescopes and binoculars for the children and will explain to the children what planets they will be able to see. Please remember that children must be accompanied by an adult.

I thought you might be interested to know that Grove CE Primary School, which I have been supporting since November, has appointed a new headteacher who will take on the substantive role after Easter. This is good news for the school and for me as I am *really* looking forward to being back at Burchetts Green full time just before Easter!

Meanwhile I look forward to seeing you all on the 4th February.

Kind regards

A handwritten signature in black ink that reads 'D. Sheppard'.
